

Information for parents on the Swedish Childhood Cancer Foundation associations

The Swedish Childhood Cancer Foundation associations are for families with children suffering from cancer.

The associations organise activities to provide support and happiness. During treatment and after treatment has finished.

The work is possible thanks to our committed members and financial donations from companies and private individuals.

There are six associations working together with the Swedish Childhood Cancer Foundation to fight against childhood cancer and provide support for the families affected.

The six associations:

- **Stockholm/Gotland**

The associations are there for you as a parent and offer:

- The opportunity to meet other families with children who are suffering or who have suffered from cancer.
- Trips and activities in which the clubs arrange family days, visits by clowns to hospitals and much more.
- SuperSnöret [the SuperString], where children with cancer collect pearls for each event during their treatment. SuperSnöret is a way for children and young people to talk about the history of their illness.

Become a member – the first year is free.

Fill in an application form and hand it in at your local association. You will then receive an e-mail from the association containing more information.
